PRICE THREE CENTS.

THE MOST IMPORTANT

piece of jewelry, in a woman's estimation, is the ring. The ancients considered it and the moderns have many cherished memories connected with it.

The designers of the rings we are now producing have produced something beyond the ordinary. Sentiment may have aided artistic conception and even the artisan has warmed up to his work. Every part of the making has been carefully done and the finished article is a work of art.

Our modest prices are aids to the possession of these beautiful rings.

KASSON IS APPOINTED.

Special Commissioner to Arrange Reciprocity.

THE PRESIDENT INTERESTED

Pressure For Early and Consistent Action In the Arrangement of Measures of Reciprocity. Other Items.

Washington, Oct. 15.—The president has decided to appoint a special commission, with plenary powers, to carry into effect the reciprocity provisions of section 3 and 4 of the tariff act, approved July 24, 1897. It was found making an investigation of the matter that the regular force of the department of state is so overcrowded with pressing business that serious delay in carrying out the expressed wish of congress would inevitably follow if in addition to the usual routine work of the department, its officers were required to perform the special examinations and negotiations essential to carry forward the will of congress, as expressed in the sections above referred to. Moreover, the pressure for early and consistent action in the arrangement of measures of reciprocity has been very great from foreign countries, as well as from our own citizens.

The interest of the president in reciprocity is especially keen, and during his connection with the tariff legislation of 1890, while chairman of the committee on ways and means of the house of representatives, the inclusion in that law of a reciprocity provision was conclusive of his determination to foster and promote American industry and commerce by this means.

In view of these facts, the president has designated the Hon. John A. Kasson of Iowa as such special commissioner, with Mr. Chapman Coleman of Kentucky as secretary, and Mr. John B. Osborne of Scranton, Pa., as assistant secretary.

The commissioner is charged particularly to look after the agricultural interests both north and south, not forgetting the large and constantly increasing manufacturing interests east of the Alleghenies.

RUSSIAN ATTITUDE

Stringent Laws and Regulations to Preserve Her Seal Herds.

Washington, Oct. 15.—Although formal conferences on the Bering sea question will not open until after the arrival of the Japanese delegates, yet the presence here of two of the Russian delegates permitted the authorities to inform themselves quite thoroughly as to the attitude of Russia on the protection of the seals.

It has brought out the fact that Russia takes an advanced position in preserving her seal herds and has more stringent laws and regulations in that direction than any of the countries interested. Under the Russian system a zone 30 miles wide is established around the seal islands belonging to the empire. The seals found within this zone are regarded as exclusively Russian, and no one other than the inhabitants of the islands can take a seal within these limits. This gives the Russian citizens exclusive rights over the seals, not only on the islands, but extending 30 miles seaward.

A British or Japanese sealer cannot operate within the zone, except to buy skins of the Russian inhabitants of the islands. The Russians themselves are permitted to kill bachelor seals, it being against strict regulations to kill a female or a pup seal.

The females are guarded with special care, as the killing of one female is regarded as equivalent to the killing of three seals, namely, the female herself, her pup on land, and her unborn pup. Furthermore, the Russians are allowed to kill a bachelor only when the animal is on land, it being forbidden to kill any manner of seal in the water.

The Russian authorities see that these regulations are enforced. A fleet of government ships patrol the 30-mile zone, and any foreign sealer who attempts to operate within these limits is seized.

INTERESTING ACCOUNT

Of How Carl Decker Fooled the Spanish Authorities.

New York, Oct. 15.—Carl Decker, one of the rescuers of Evangelina Cosio Cisneros from the Casa de Rosillos, Havana, arrived in this city on the Spanish line steamship Panama. He was met down the bay by a number of newspaper men and said "I was commissioned to go to Cuba and deliver Esnorita Cosio Cisneros from the filthy prison. I started from New York Aug. 28, determined to free the woman, though I did not see my way clear as to the plan to be adopted. After reaching Havana several plans suggested themselves to me, but each one proved impracticable. I tried to bribe the jailor or alcalde, but he wanted \$16,000 for the job and positive assurance that he and his family could get to the United States. This was too rich a proposition for me."

Mr. Decker repeated the story of the rescue from the jail as already told

in his dispatches and then related what happened after the girl was out of the prison. He said: "When Esnorita Cosio Cisneros entered our shanty adjoining the jail we let her rest a few moments and then took her to a carriage waiting outside and drove to the house of a friend. The friend was holding a reception that night, which was a part of the plot. The man who drove the carriage was one of the conspirators. Esnorita Cosio Cisneros was exhausted from excitement when she reached the house, but she did not give way.

"On Thursday morning she was taken to the home of a friend where she remained in secrecy until Saturday afternoon.

"To reach the steamer for New York she was obliged to walk down Obispo street, the principal thoroughfare of Havana, at a time when the street was crowded, and yet take her time and smoke a cigar. She had a passport made out under an assumed name. All the steamships anchor out in the stream. Esnorita Cosio Cisneros walked down from the house clad as a rancher, and my companion and I followed. She sauntered along leisurely and once in awhile turned about to see if we were followed. We motioned her to go on. She grew more confident as she went along, but we could see that she was under a strain. She got on the launch and we waited and when the launch returned from the vessel and she was not on it we knew that the scheme had worked like a charm.

"The day after the jail break the town was astir over the escape of Esnorita Cosio Cisneros, a house to house search was begun and would have been kept up had not a telegram from Minister Dupuy de Lome at Washington informed Weyler that the girl was on the high seas and expected any day in New York. Then Weyler was mad. He threw the jailor, Jose Quintana, into jail, whereupon the jailor told about my attempting to bribe him. This, in connection with the surprise of de Lome, placed suspicion on me.

"My passport was made out in the name of Karl Decker. In order to take the Panama Sunday night and run the gauntlet, I must get my passport revised and stamped with the seal of the secretary of the captain general. I knew that my passport would never be signed and I learned that an order for my arrest was determined on and that I was to be arrested at.

"The Spanish authorities never thought for a moment that I would take a Spanish steamer. Nearly all the Americans take the American line. They did not think to guard the Panama and watch for me. They arrested all prisoners at 5 o'clock in the morning. They were sure I would be in town on Monday and they were fooled.

PULLMAN CAR COMPANY EARNINGS.

Chicago, Oct. 15.—At the annual meeting of the stockholders of Pullman Palace Car company over \$24,000,000 of the capital stock was represented. Directors George M. Pullman, Marshall Field, J. W. Dunne, Norman Williams and O. S. A. Sprague of Chicago, Henry C. Hulbert of New York, and Henry K. Reed of Boston were re-elected. The usual quarterly dividend of \$2 per share, payable Nov. 15, was declared. The income of the company from earnings was \$7,743,344.

DECLARED A DIVIDEND.

Richmond, Oct. 15.—The Norfolk and Western railroad, at its annual meeting at Roanoke, re-elected the old directors and officers and decided to declare a dividend of \$1 per share on preferred stock, payable out of the net surplus income for the period ending June 30, 1897.

A CHINESE INSPECTOR

Forwards His Resignation to Secretary Gage.

FRAUD IN THE ADMISSIONS

Colonel Scharf Will Make Some Suggestions to Congress on Irregularities of Laws Regarding Out-Orients.

New York, Oct. 15.—Colonel J. Thomas Scharf, Chinese inspector of the southern district of New York, has forwarded his resignation to the secretary of the treasury, giving as his reasons his desire to practice law.

He admits, however, that it is because of the constant warfare he has had in administering the duties of his office. Colonel Scharf said: "When congress assemblies and appoints a committee to investigate irregularities in the administration of the Chinese laws, I shall place before it all the facts collected by me during my administration of this office. I know from my own investigations that men now holding office are engaged in the irregular admission of Chinese. I have been informed further that some of them have accepted bribes."

COULDN'T ESCAPE.

Women Exact Promises of Political Progress in St. Louis.

St. Louis, Oct. 15.—Mrs. Victoria Conkling Whitney headed a committee of women who called upon Street Commissioner Miller. She introduced herself and said:

"We represent the Woman's Equal Suffrage club, and we demand the appointment of women street inspectors. If necessary, we will resort to political influence to secure our demand. Now, will you appoint a woman to the position of street inspector?"

Mr. Miller said he would, and agreed that 10 of the 40 inspectors should be women recommended by Mrs. Whitney, provided the mayor approved the appointments. The inspectors get \$3 a day and the commissioner said the women would have to do the same work that the men are doing.

PRESIDENT FAURE

Is Banqueted by the Business Men of Paris.

Paris, Oct. 15.—President Faure was banqueted in commemoration of his recent visit to Russia. The entertainment took place in the hall of the Commercial exchange. The table at which M. Faure was seated was on a dais and was covered by a canopy of tawny velvet fringed with gold.

The banquet was organized by the merchants and manufacturers of France, of whom there were about 750 present. The president, escorted by a squadron of cuirassiers, was accompanied by the officers of his military household. He was received by the presidents and members of the commercial tribunal of the Seine, the chamber of commerce, the banquet committee and all the cabinet ministers who are in Paris.

M. Goy, president of the tribunal of commerce who presided, toasted the president, and in so doing, referred to the pleasure which all present experienced at "renewing the respectful homage and gratitude" extended to the president of France on his return from Russia.

Continuing, M. Goy remarked: "This demonstration is unique in the history of France. Commerce and industry placed their confidence in the republic the day after the disasters of 1870 and they have not been deceived."

President Faure said in part: "I am pleased to find myself in the society of business men, where I can rely upon a friendly reception by virtue of my own origin, of which I am always proud."

"Let me tell you how deep was my emotion when Paris declared the patriotic satisfaction which the entire nation felt at the consequence of the words exchanged between the emperor and his president. I repeat, in order to place the country face to face with its responsibilities, that it is owing to its great wisdom and political spirit that the democracy is able to rejoice at the results obtained. It has known how to prove that the republican institutions, to which it is unalterably attached, guarantee peace at home and I am sure abroad."

TALKED WITH THE PRESIDENT.

Washington, Oct. 15.—Senator Elkins of West Virginia was with the president for quite a long time. Besides discussing West Virginia appointments, the president talked over a number of public questions and matters which will come before congress. The president is very much interested in the campaign now in progress in New York city, Ohio and Maryland. When Senator Elkins left the White House it was announced that Dr. D. Mayer of Charleston, W. Va., had been selected for consul at Buenos Ayres, Argentine Republic.

CANCELLED DEBENTURES RETAINED.

Lima, Peru, Oct. 15.—The chamber of deputies in open session, and again

in another session, discussed the affairs of the Peruvian corporation. The corporation was severely attacked, and it was declared that it had never handed over the canceled debentures to Peru. The deputies declined to grant the extraordinary power asked by the commission appointed to settle the affairs of the company. The commission must not alter the conditions of the cancellation of Peru's foreign debt or incur new liabilities.

MORE TEA CONDEMNED.

Portland, Oct. 15.—Francis Seeley, government tea inspector, condemned 830 chests of tea which arrived from the orient on the steamship Monmouthshire. Several days ago he condemned 422 chests consigned to a Chicago firm. The entire lot was found to be old, trashy tea unfit for use.

DISCIPLES OF CHRIST MEET.

Indianapolis, Oct. 15.—The national conventions of the Christian churches (Disciples of Christ) began here, and will continue until Oct. 22. Among the important subjects to be discussed by the delegates is that of consolidation of the missionary interests of the church. Legal obstacles have heretofore prevented this action.

RESULT OF A LOVERS' QUARREL.

Chicago, Oct. 15.—John Peters, who was shot by a young woman supposed to be Florence Gleason, died soon after he had been removed to the hospital. The girl, who after the shooting committed suicide, was later identified as Sophia Klenger. The tragedy resulted from a lovers' quarrel.

KNIGHTS OF ST. JOHN

Entertain a Large Party of Friends at a Smoker

An Excellent Musical Programme and a Pleasant Social Evening Enjoyed by all Who Were in Attendance

Commandery 201, Knights of St. John, gave a "smoker" and delightful entertainment last night in the school hall on north West street. There were present one hundred and fifty members of the order and a like number of their friends, one being invited by each member. The Knights' orchestra opened the evening's entertainment with some beautiful selections which were followed by an address of welcome by the president, Mr. Chas. J. Dimond, who ably pointed out the objects for which the Knights of St. John organization was formed, and how the branch here had grown in a few years from a small membership to the handsome number of one hundred and fifty members, all in good standing. He also warmly welcomed those present who were not members of the organization. Beautiful vocal selections were well rendered by Messrs. J. F. Mahoney, John Brennan, J. M. Madigan, Frank Bland, John J. Maloy, Frank Guinan, and Mike Kelly. The selections were well received by the audience, each singer being compelled to respond to an encore. O. W. Regan favored the audience with a number of piano selections which were artistically rendered. At the close of the entertainment a light lunch was served and this was also enjoyed by everyone present.

Last night's entertainment was the opening of a series of winter entertainments which will be given by the local commandery. These social affairs are always highly enjoyed by those having the good fortune to attend them.

HOLDS ITS GROUND

This is the Testimony From Everywhere as well as Lima.

Can this be so? Is it true? Are the facts garbled? Is the truth distorted? These are questions which every man and woman in Lima suffering the torture of backache say as they read the published accounts in the newspapers about medicines which claim to cure it. Whatever the conclusion arrived at is touching these claims, he can't hedge or flinch from or disprove the following, for it took place in Lima and the experiences are those of a representative citizen. Mr. F. K. Busbey, the well known hack owner, says: "I had both with my back off and on for about two years. It would begin without any notice and I could hardly move out of a chair after having been sitting for some time, and my back would pain me with a dull aching that took all the energy and ambition from me. I read about Doan's Kidney Pills and I thought I would try them, and I procured a box at W. M. Melville's drug store, No. 141 N. Main St. I must say that they did the business right away. I took but part of the box but the lameness in the small of my back left me no remains of that lingering pain in my kidneys. I consider them a thorough cure for backache and I can conscientiously recommend them. Doan's Kidney Pills are all right."

SUNT LACRYMAE.

Oh, saddest of all sounds that be
Sweet Virgil's sad "sunt lacrymae"
A jeweled thought, a gracious line,
Set in a music half divine,
With marmalade like the enchanted sea
Beneath his own Partholope,
Where at the last and ocean's lover
He rests, a laurel hanging over.

And he had heard it, he had known
Humanity's sad, silent moan
And felt the waste of human things
That mounts from beggars up to kings.
A young Marcellus early taken,
Like fruit by tempest rudely shaken,
Or great Catullus' stately fame,
That sunk and left but half a name,
Or rupture of a night, the bride,
Like Psyche, stolen from our side,
Or perished worth and friendship old
In dust and darkness lying cold.

And we have heard it, we have known
Yet deeper sorrow's sadder tone—
Beethoven's passion, Shelley's pain,
The splendid gloom of Byron's strain,
With Misericordia's song taken,
Complaining to the years—how long!
This heroism of an ancient wrong.
And we have heard the pillow cry
Of strong men's sleepless agony.
O God, how slow the hours go by!

But song more sweet shall never "tine"
The rue and rose in one short line
Or more pathetic give to grief
An outlet for a moment brief
To lose awhile the captive woe,
Whose prisoned drops refuse to flow.
And, like a draft of myrrh in wine,
To mix in tears an antidote,
Than in that world's sepulchre,
Sad Virgil's sweet "sunt lacrymae."

Cured in One Night.

Charles H. Connelle, Esq., leading lawyer of York, Pa., says: "Our Brazilian Balm cured me of one of the worst colds I ever experienced, in one night. I think it the greatest medicine in the market, and you can use my name any way you like."

Air and Water Pressure.

It is a remarkable fact that the very means of life may be the cause of death. A whale is drowned, and now a scientist tells us that there seems to be a peculiar fatality among fishes. After reaching a certain depth of water the swimming bladders become distended by the pressure of air, and the fish literally explode. Too much of one's native element may bring about most disastrous consequences. A sudden change of air from one density to another may cause the rupture of a blood vessel, and a too sudden change of temperature has produced like results. Extremes of all sorts are not only very injurious, but are likely to prove fatal, especially to organisms that are not in the enjoyment of robust health.—New York Ledger.

Natural Scenery.

The Mexican Herald takes occasion to point out the real monetary value of natural scenery as exemplified in the investments represented in the hotels of Switzerland, the value of which is put down at more than \$100,000,000 gold, and says, "Mexico is a combination of Switzerland and Italy." The editor seems to have been inspired by the statistics, which show that 1,230,000 guests pay Swiss innkeepers \$22,000,000 a year for food and lodging.

Reconstructing the Face.

Half a century ago a child with the most distressing facial deformity was allowed to grow up a dread to himself and an object of pity to all of his associates. It was not deemed possible to correct this deformity. Nobody gave it any thought. The wretched victim suffered out his miserable remnant of life, and that was all there was about it. Within the past few years a branch of surgery that is of the utmost importance to humanity has been receiving careful attention, and as the art of restoration stands at the present day, there is no excuse whatever for the hideous objects that were formerly looked upon as incurable and therefore inevitable. All manner of changes are now made in the personal appearance. The harsh and distorted mouth are treated scientifically, and the face is restored to its normal condition and even greatly improved by the operations which these blemishes render necessary. Crooked noses are straightened and ears that extend out from the head are skillfully put to rights with the most astonishingly gratifying results. Flat, humped or depressed noses are made symmetrical and even beautiful. Of course the treatment is more successful upon the young than when undertaken with those who have reached maturity, but even late in life it is quite worth while to have some of one's blemishes removed and to present to the world as good an appearance as possible.—New York Ledger.

Too Many Rules.

The teacher who gives her pupils "simple rules" outside of the authorities for determining questions which confront them, and particularly grammatical questions, is apt to find that her rules disastrously fail to fit all cases.

One time the county superintendent of schools was questioning the pupils of a country school. He wrote on the blackboard the sentence, "The fly has wings," and asked a class what part of speech each word was. They passed the "the" without serious trouble.

"What part of speech is 'fly'?" asked the superintendent.

"Adverb," shouted all the class in unison.

"What! 'Fly' an adverb?"

"Yes, sir," shouted the children, with great positiveness.

"What makes you think it is an adverb?"

"Cause teacher told us that all words that end in 'ly' are adverbs."

FOOT INJURED.

Edward Lego the Victim of an Accident at the Car Works.

Edward Lego, of the south side, is hobbling about with the aid of a pair of crutches and with one foot wrapped in bandages. He is employed at the car works and had his left foot badly bruised by dropping a heavy plank upon it. It is thought that no bones are broken but the injury is serious enough to keep Lego from work for some time.

Amusements.

"Miss Francis, of Yale," Monday.
"The Isle of Champagne," Tuesday.

When manager Charles Frohman first produced "Charley's Aunt" at the Standard Theatre, New York, he secured the famous English comedian, Etienne Girardot, to create the title role. Girardot made an enormous hit and he performed the leading role in New York City for one solid year. Mr. Girardot last season selected a new role in "Miss Francis of Yale," in which he has duplicated his "Charley's Aunt" success.

Perhaps the most gorgeous operatic spectacle seen in Lima this season will be "The Isle of Champagne" opera which comes next Tuesday evening. The company is headed by Richard Golden, of "Old Jed Prouty" fame, and Katherine Germaine, formerly the star of "The Feeding Master." Mr. Golden and Miss Germaine will have the support of such well-known artists as J. W. Kingsley, Joseph F. Sparks, Blanche Chapman and Lillian Burnham. The company comprises seventy people, including a full ballet and complete orchestra.

A Little Mistake.

"The meanness of some people is too aggravating," said the paper hanger as he viciously slapped the paste on the length of paper. "They seem to want to do everything themselves nowadays instead of giving workmen a chance to earn a living. People cobble their own boots instead of paying to have 'em done decently, and some women will smother themselves and everything in white-wash trying to do their own ceilings rather than pay half a crown and have it done by an expert."

"Some people are always grumbling," said the mistress of the house, who had entered in time to catch the last words. "Didn't I give you enough beer just now?"

"It's about the meanest thing I've known," returned the indignant paper hanger. "You have me in to do one room, and all the while your husband is doing the other himself."

"Who says so?"

"You wouldn't have two men doing the same thing at once, and I know you're having the next room papered, because I can hear some one scraping the walls. You might as well give the job to me."

"A lot you know about it!" retorted the lady with fluency. "That's my husband shaving himself."

Early Pottery.

One of the principal territories of the potters for centuries was King-te-Chin, the finest pieces being made during the Ming dynasty. It is stated that the fine specimens were made with so much care that out of 200 pieces they would sometimes destroy 190. It is recorded in 1615 that a titled man in Japan had one of his attendants of rank whipped for breaking a cup and then sent to China at his own expense to buy another.

Every Republican candidate for the legislature is pledged to vote for Hanna for senator. He has no choice in the matter. A vote for such candidates is an endorsement of all that is evil in politics.

If Hanna is such a friend of labor, why is it that not a single bona fide labor organization in this state will endorse his candidacy? Surely the organized labor in his home town of Cleveland, regardless of party, would not denounce him, as it has done, were he at all fair in the treatment of his employees.

The Republican party believes in government by injunction with its concomitant evils, murderous sheriffs and blood thirsty deputies. Laboring men remember this. It is your battle the Democratic party is fighting in Ohio this fall. The result

means more to you than to anyone else. Keep this in mind when you go to the polls next month. The opportunity will there be presented to you to strike a blow in defense of your rights and your interests.

The Canton Democrat says: Recognizing that the great struggle for freedom is again at hand and a peaceful solution offered through the medium of the ballot, the people everywhere are turning their eyes toward Ohio, for they know that one of the worst blows the money power and the trusts can receive is the defeat of Mark Hanna, whose triumph would only embolden the enemies of the people and invite them to exercise the crushing force more severely than ever, destroying the last hope of the plain people for substantial relief. The men who fought for the Union in the sixties are again becoming alive to the peril menacing the nation they saved, and deeply feel that their sacrifices for country and liberty have been in vain if the chains that were broken from the ankles of the black slave are to be forged anew by the money power, about the energies of the producer of wealth, making indeed a race of white slaves. The soldiers of the Union are taking an active interest in the coming election. They believe that the time has come when patriotic citizens must again go to the front.

The old soldiers know that the fellow who hired substitutes in war times and staid at home amassing a fortune through the misery of his fellow men and in the dark days of his country's history, is just the fellow that may now be found buying up votes, and conventions as substitutes, while he stays in the rear to claim the fruits of victory when victory is gained for the moneyed interests and the great corporate trusts, that labor may be further crushed and degraded and disarmed from further opposition to the men who seek to own the race.

The soldiers of Ohio are not with Hanna nor are the soldiers of other states. That this feeling is general may be seen from a letter received this morning at the *News-Democrat*

office. The letter contained \$15 in money and was from patriotic soldiers, inmates of the Soldiers' Home at Los Angeles, Cal. The men were former residents of Ohio and the majority of them were Republicans. They now see that the interests of their native state and their beloved country are assailed, and they forward their mite to assist the people to win. The letter follows: **SOLDIERS' HOME, LOS ANGELES, CAL., Democrat Publishing Company, Canton, Ohio:** Please forward the within list of names and the \$15 in money to the chairman of the Democratic committee at Columbus, and oblige the subscribers. Down with Hanna. Very Respectfully, **I. G. MALLINE.**

This is followed by a list of the thirty subscribers, twenty of whom are silver Republicans.

Report on Hammond Case. Washington, Oct. 15.—Secretary Alger received the report of an inquiry conducted by Captain Richards into the alleged brutal treatment of Private Hammond by Captain Lovering at Fort Sheridan some days ago. Captain Richards examined a number of persons, including Captain Lovering and Hammond. The testimony of these two witnesses, Secretary Alger says, agree almost entirely except that Hammond claimed Captain Lovering kicked and jabbed him with his sword more times than the latter admits; also that Hammond declares that the captain swore at him, which the latter denies. The statement of Captain Lovering agrees substantially with that he has made in published interviews.

A Long Shot Wins. Cincinnati, Oct. 15.—The greatest surprise of the meeting came in the Kimball stakes at Latonia when Nuto, with 50 to 1 about him, beat a crack field of 2-year-olds in a hard drive. Malvolio, who has won nine out of 11 races this year, was an odds on favorite in the race, but the best he could do was to get third money. Nuto got away well and led the field all the way, winning by two lengths under the good ride put up by Perkins. Malvolio came like a flash of lightning in the stretch, but could not overtake Nuto and Don Quixote.

Miners Return to Work. Pittsburgh, Oct. 15.—The 3,500 miners of the river district, who have been idle for two weeks owing to a dispute

over the differential, resumed work pending a settlement of the trouble by arbitration. The resumption was made with the understanding that a decision is to be reached within 10 days so that the first pay received by the miners can be based upon the rate decided upon by the arbitrators.

New Industry Opened Up. Washington, Oct. 15.—United States Consul Smyth at Cartagena, in a report to the state department, says that as a result of the new United States tariff a most notable increase has followed in the shipment of ivory nuts from that port to the United States. The new tariff on vegetable ivory buttons has caused the crude article to be shipped to the United States instead of to Europe, where it was formerly largely manufactured into buttons.

It Had Its Effects. Washington, Oct. 15.—Consul Germain at Zurich, Switzerland, in a report to the state department, says that Swiss imports from America show an increase in wheat, woods, agricultural machinery and implements, horses, dried fruits, preserved meats, bicycles and cast iron goods. A decrease is shown in raw cotton, leather, lard and fresh fish. The consul also mentions the decrease in the exports of silk to the United States.

Will Facilitate Matters. San Francisco, Oct. 15.—Information has been received that the Canadian Pacific railway has placed two corps of surveyors with a view of opening up the Stikine river route to the Yukon mines. From the mouth of the river to the point at which the road down the Yukon will begin there are said to be no engineering difficulties, and it is believed the line can be kept open seven months in the year.

Killed in a Collision. Ottawa, Oct. 15.—The Toronto express on the Canadian Pacific railroad due at 6 a. m. collided with a freight at Schreiber. An engineer, one mail clerk and two tramps were killed and many were injured.

Introduced to the Public. New York, Oct. 15.—Sonora Evangelina Cossio y Cisneros will be introduced to the public at Madison Square Garden Saturday evening by the man who rescued her from the Spanish prison in Cuba.

Son-in-Law of "Devil Ance." Huntington, W. Va., Oct. 15.—John Vance killed James Thompson and seriously injured Thompson's wife in Logan county, the result of an old feud. Vance is a son-in-law of the notorious "Devil Ance" Hatfield.

A Remarkable Cure.

Mr. Alexander Moore, a reliable business man, of 1230 S. 13th St., Philadelphia, Pa., says: "I contracted a violent cold which settled all over me. The pain in my chest and side was excruciating. The doctor gave me medicine and blistered my side, but I only grew worse. Then you gave me a bottle of Brazilian Balm. I had little or no faith in it, but decided to try it. I took 3 or 4 good doses before bed time, and rubbed it well over my blistered side. That night I slept like a top—my first good rest for over a week—and awoke in the morning cured. Brazilian Balm is simply invaluable."

THIRTEEN

Indictments Result from the Awful
Crime at Newport, Ky.

And John Moore, Who Was Captured
by Sheriff Fisher. Is One of the Un-
lucky Number

Rapidity and thoroughness, says a
dispatch from Cincinnati, marked the
work of the grand jury sworn in last
Wednesday morning in the Campbell
county circuit court to investigate
the criminal assault on Mrs. Bertha
Gleason. Their report was made
shortly after 4 o'clock yesterday after-
noon, and thirteen men, ten of whom
are under arrest, are indicted, seven
on the heinous charge of criminal
assault and six for aiding and abet-
ting. But four men were dismissed.

MOORE DENIES HIS GUILT.

John Moore, who was arrested
Wednesday at Lima, Ohio, arrived in
Newport yesterday at 10:30 a. m., in
custody of sheriff Plummer. Moore
was locked up. When seen by an
Enquirer reporter he denied his guilt,
stating that on the night of the
assault he accompanied the gang out
to the head of Monmouth street, but
turned back before the assault was
made.

In all probability none of the pris-
oners will be returned to Maysville,
but will be held in the Newport jail
until the time for trial. Excitement
has abated, and the report of the
grand jury seems to have given gen-
eral satisfaction. Judge Helm
stated last night that no special or-
der would be entered regarding the
disposition of the prisoners.

THE NUMBER THIRTEEN.

If any of the prisoners charged
with assaulting or aiding in the as-
sault on Mrs. Gleason are inclined to
be superstitious there is cause for
the arousing of their fears. The
number 13 is playing a prominent
part in the case, as it did in the no-
torious Jackson and Walling case,
tried in the same court.

The grand jury was impaneled to
investigate the case on the 13th of
the month and returned 13 indict-
ments against the accused assailants.
This fact was remarked by several
who heard the indictments read.

NOTES

Fireman Cunningham, of the L. E.
& W., has reported for duty after a
brief vacation.

The Detroit & Lima Northern
Railroad will publish a new time card
the first of November.

J. H. Upp, traveling auditor of the
L. E. & W., was in the city last
night, hustling after business for his
road.

The new interlocking switch cross-
ing of the Lake Shore and Northern
will be completed in two weeks—
Adrian Times.

The Detroit & Lima Northern has
placed an order with the Baldwin
Locomotive Works for two ten-wheel
freight engines.

There will be a special meeting of
Lima division No. 120, Brotherhood
of Locomotive Engineers, at the
lodge hall Sunday morning at 10
o'clock.

J. M. Percy, division master me-
chanic of the Cincinnati, Hamilton &
Dayton, has retired. He will be suc-
ceeded by A. J. Ball, who is located
at Dayton.

The D & L. N. is working a large
force of men all along the line, getting
it into good condition for the winter.
More gravel is being used, the ties
raised and the irregularities of the
road straightened.

Fireman Will Herring, one of the
L. E. & W. employees suspended for
going into Ft. Recovery with a
freight train too close upon a pas-
senger train's time, has resumed
work, using a switch engine in the
yards.

The C., H. & D. yesterday had
their new steam motor car out on the
road for a trial trip. Supt. Floeter,
general manager Waldo and passenger
traffic manager Edwards, with other
officials, were among those who were
in the coach drawn by the motor. It
was taken out to determine whether
it would perform the work which it
is intended to do, and also for the
purpose of permitting patrons of the
road and others at the stations where
stops were made to inspect it. The
motor will be used on the street rail-
way lines between Hamilton and
Cincinnati. It is a short and peculiar
shaped piece of machinery. It is
equipped with compound engines and
produces no noise when in use. It
was the intention of the officials to
run the motor as far north as Lima,
but it was taken only to Dayton and
then run back to Cincinnati.

AN INTERESTING GAME

Of Foot Ball will Be Played at Faurot
Park To-morrow.

An interesting game of foot ball
will be played at Faurot's Ball Park
to-morrow afternoon. The Lima club
will play a club composed of Lima's
boys most of whom have at one time
been players on some University
team. The game will no doubt be
an exciting one, and the selected
eleven will give the Lima boys a close
game.

A Keen Purchaser.

The younger portion of the pres-
ent generation may not remember
the old fashioned silver coin once
so plenty in the United States, of
the value of 12 1/2 cents. In New Eng-
land it was called a "mincepiece," in
New York a "shilling," and it bore
other names in other sections of the
country.

One day a tall, lank, towheaded
specimen of humanity from the
Moto mountain district entered
Sam Thom's store in Conway, N. H.
He looked around for awhile upon
the tempting things displayed and
finally drew from his pocket a bat-
tered mincepiece which he clutched
with an evident determination not
to part with it recklessly.

"Say, mister," he said, pointing
to a box of lozenges upon the coun-
ter, "how much'd ye ask for them?"

"Two cents a roll," was the re-
ply.

"Well I'll hev a roll. What do
ye ask for them apples?"

"Two for a cent."

"Waah, let's see—I'll hev one of
em, that'll be half a cent, and the
lozengers 2 cents, jest 2 1/2 cents.
Ye ken take it out of this 'ere
mincepiece and give me back 10
cents."

Mr. Thom could not refuse. The
story to tell was worth more than
it cost by far. New York Ledger

MORE PUNISHMENT

Inflicted by Mayor Baxter's Scathing Words

THAN IN THE SENTENCE

He Imposed Upon Frank Guilty This Morning—Would Accept No Fine by Which to Puntish the Prisoner's Innocent Friends.

Frank Guilty was arraigned before mayor Baxter at 9:30 o'clock this morning to answer to the charge brought against him by Patrick O'Maley, the street railway motorman whom he assaulted and knocked senseless with a heavy piece of curbstone last Sunday afternoon. To serve the sentence that mayor Baxter imposed will be severe punishment for the offense he committed, but to the curious spectators who crowded into the court room the scathing words that mayor Baxter poured forth upon the prisoner before him before pronouncing his sentence, seemed double the punishment that will attend the physical penalty of thirty days at hard work in the city workhouse.

Guilty, after having made, since the trouble occurred, two round trips on the P., Ft. W. & C. local freight, on which he has been at work, laid off to appear before the mayor as he was under bond to do. He and O'Maley, the latter still bearing evidence of the assault, both appeared at the police station some time before the mayor arrived and their presence attracted quite a crowd of spectators. When mayor Baxter arrived the crowd had become so large that the mayor's office was chosen for the court room. Guilty was given a c. i. r. in which he sat facing the mayor and the latter read the affidavit in which the prisoner was charged with having been guilty of boisterous conduct, fighting and assault. Guilty listened until the mayor had finished and then, without attempting to offer any evidence tending to justify his conduct, replied simply that he was guilty.

THE MAYOR'S LECTURE.

Mayor Baxter never before gave a prisoner such a forcible, eloquent and humiliating lecture as he delivered to Guilty. He at first remarked not only of the latter's conduct, but of the general behavior of the crowd in which the prisoner usually made him self an object for the attention of the police. In reference to a recent remark of Guilty's to the effect that "the police had it in for him," the mayor said there never was such folly and that any one who would make such a remark was actuated by guilty knowledge of the fact that the police had reason to be continually alert to protect the public from such persons. As he removed from a newspaper the blood bespattered pieces of sandstone which so nearly ended O'Maley's mortal existence the mayor remarked that to him the only wonder was that the blood was not upon the prisoner's soul instead of the rude weapon; that Almighty God had intervened in Guilty's behalf and saved him from being a murderer to give him one more chance in life. He charged Guilty with belonging to a class of men who glory in being "tough," who would be nothing else from choice, and said to the prisoner: "You have an occupation that is looked upon as a desirable one, by reason of the opportunities it offers for promotion. Only yesterday afternoon there passed your train the special carrying the president of the corporation you work for: an honored and useful man who began his career in a much more humble sphere than the one you occupy, and arose to his present position by reason of his merit and worth. Such fellows as you have no ambition; you don't want advancement; you ruin every hope of promotion by being what you are. It's a hopeless task to try to arouse any of the better elements of manhood; nothing affects you only to

BE MADE TO SUFFER

for your meanness. If there was no one but you to be considered I would give you the highest punishment known to the statutory law, but I cannot punish your friends, whom you always embarrass by calling upon to help you when you get into trouble. However, you shall not go unpunished; you shall be punished severely. I will not do you the honor of sending you to the Dayton workhouse, where you might work out your sentence among strangers who know nothing about who you are, but I shall send you to the stone pile right here in Lima, where you may work hard for thirty days here at home, and I hope it will make a better man of you. We shall not put a very strong guard over you. If you are there when your term is out, well and good; if you're not there, we will know where to find you when we want you.

The Husband says He Will Fight the Suit—Three Marriage Licenses Issued—Real Estate Transfers—Other Court House News.

Thomas Muller, the thirteen year-old boy who was arrested a few days ago for truancy, will have his trial next Monday morning before judge Robb. Should he be found guilty of the charge placed against him he will be sent to the reformatory at Lancaster. The boy has been before the probate judge on previous occasions charged with the same offense. His mother has been unable to compel him to attend school, and the state will now take him in charge with the hope of educating him.

SEEKS A DIVORCE

Jennie Rothlisberger has entered suit in the common pleas court against her husband, Ernest Rothlisberger, for a divorce. She states in her petition that her husband deserted her seven years ago and since then they have not lived as man and wife. She alleges gross neglect of duty and extreme cruelty on the part of her husband.

Mr. Rothlisberger intends to fight the suit, and denies all the allegations made by his wife and will file a cross petition in answer to the petition filed by his wife.

WANTED TO DIE

And Begged the Paving Men to Chop His Head Off.

AT McCULLOUGH'S LAKE

Michael O'Connor Attempted to Drown Himself, But was Rescued by His Father—His Insanity Caused by Sickness.

Considerable excitement was created in the vicinity of McCullough's lake, late yesterday afternoon, by the report that a man had drowned himself in the lake. The rumor was false, and no one destroyed his life at that place. The lake, however, would have held the dead body of an insane person arrived at the lake in time to prevent the son from taking his life.

Michael O'Connor, who lives with his father on north Jackson street, has been in ill health for some time, and his sickness seems to have affected his mind. About 3:30 o'clock yesterday afternoon he left home and came down town, stopping on Main street, where the paving men were at work on the street putting on the filler. He acted strangely and went out to where two men with axes were chopping a barrel of asphalt filler in two. He knelt down on his knees, placed his head on the barrel that the men were chopping and asked them to cut off his head. The men were greatly surprised at his actions and could not understand why a person should act so. Seven times he repeated this peculiar act, but was as often ordered away. Finally sergeant Watts came along, took the man in charge and started home with him. When they were near the French House O'Connor regained his senses, remarked that he should not have acted as he did, and told the sergeant that he could take care of himself. An hour or more afterward he wandered to McCullough's lake and again the desire to destroy his life took possession of him. He had started to wade out into the lake, when his father, who had been informed of the strange actions of his son, arrived at the lake and taking charge of him conducted him to his home.

PRETTY WEDDING

Occurred at the Home of Mr. and Mrs. W. N. Copeland Last Evening.

Mr. F. H. Haman and Miss Ella Wheeler, both of Wapakoneta, the Happy Couple.

One of the most novel weddings of the month occurred at the residence of Mr. and Mrs. W. N. Copeland, No. 799 south Elizabeth street, at 8 o'clock last evening, the contracting parties being Mr. B. C. Haman, son of Mr. and Mrs. F. H. Haman, proprietor of the Standard Churn Company, of Wapakoneta, and Miss Ella Wheeler, daughter of M. B. Wheeler, an honored and respected citizen of the same place. Only a few intimate friends were present, the wedding being very quiet, attorney and Mrs. W. T. Copeland, to whom the bride is related, being the only invited guests.

Promptly at 8 o'clock the bride, who was attired in a suit of white organdie and carrying a bunch of bride's roses, and the groom, dressed in the usual black, in the parlor where they were surrounded by cut flowers and plants, were made husband and wife, the ceremony being performed by the Rev. G. W. Tancy, pastor of the M. E. Church, of Wapakoneta, of which the young couple are active members.

Immediately after the ceremony the party proceeded to the dining room and there feasted on the delicacies of the season, until the groom, overcome by ecstasy or excitement, proceeded to devour the silverware, thinking it was celery. By prompt action upon the part of C. C. Kiplinger all the spoons were saved, and the groom's action not imparted to any serious degree. At 9:30 o'clock a cab was in readiness to convey the wedding party to their home on east Anglin's street, Wapakoneta, where they will be at home to their friends after Nov. 14th. Mr. Haman is in the employ of the First National Bank, of Wapakoneta, and is a model and exemplary young man while the bride is recognized as the leader in the musical circles of that city. May happiness and prosperity be theirs.

THE RAILROADS.

Northern Ohio Engines to be Sent to the O. S.

COAL TRAFFIC VERY HEAVY

And several of the Ohio Southern Engines Are in Need of Repairs—Other Railroad News of Local Interest.

Coal traffic has become so heavy over the Ohio Southern and D. & L. N. that both roads, and especially the former, feels the need of more motive power. Two of the Ohio Southern engines are now being overhauled at the Lima Locomotive and Machine Co.'s works on east Market street and five others are to follow in their turns. Application has been made for assistance from the L. E. & W. and a requisition is daily expected by the local officials of the latter road for three or four freight engines and crews. Superintendent of equipment Riley, of the L. E. & W., has three engines, the Northern Ohio 21, 23 and 27, that has been overhauled at the shops here and are in readiness to be sent to the Ohio Southern on a moment's notice. Work on the Northern Ohio No. 35, which is at the shops for repairs, is being pushed rapidly and that engine instead of the 21, which is a Pittsburgh passenger locomotive, may be sent when the requisition is received. If these engines are sent over on to the O. S., engineers Ruby Peck, Jack Tarbutton and Ed Brown, who were transferred to the Northern Ohio last year, will doubtless be the men who will go in charge of them.

The D. & L. N. engines are in good condition, being, most of them, new and an order has been placed with the Baldwin Locomotive Works for two new 10-wheel freight engines, which will be received soon.

STONED A TRAIN

The result of the further investigation made by P. F. detectives Reeves and Gasting in the matter of the stoning of a P. F. freight train at Scott's Crossing, Sunday night, was that Irvan Peltier, a son of Enos Peltier, was arrested yesterday and brought before mayor Baxter and pleaded guilty to the charge filed against him. It develops that he threw the stone that struck the caboose and nearly hit a brakeman. He was fined \$10.00. — *Delphos Herald*.

MAKING MONEY

It is claimed that the railroads are coining money because of the increase of three-cent fares since the new interchangeable mileage ticket came into use in the Central Passenger Association territory. On some of the more important lines it is said that the purchase of straight tickets at the regular three-cent rate has more than doubled. This increase, of course, is on local fares, and is attributable to the fact that the mass of the traveling public objects to what is considered the red tape features of the 1,000 mile interchangeable ticket. It has been claimed all along by the railroads that they have been losing money on their passenger traffic, and it was to brace up this department that the new ticket was invented. If, as reported, there is an increase in three-cent fares, it is fair to assume that the managers have gained the very point they have been aiming at. In spite of the strong opposition to the new ticket, it looks as if the roads to the agreement were gradually strengthening their position, and that the combination only needs the addition of the Menon and one or two other lines to make it practically impregnable.

ST. MARYS HUSTLING

To Raise the Guarantee Fund to Secure the C. & N.

Wapakoneta has succeeded in raising the \$20,000 subscription for the Wapakoneta-St. Marys branch of the Columbus & Northwestern. The people of that town are much concerned over the proposed road. St. Marys has not been quite so successful in raising the \$25,000 asked of her citizens, but \$20,000 has been subscribed and the remainder will probably be secured by the end of the week. An ordinance to issue bonds on the village in the sum of \$30,000 to pay for the new road was passed by the council. Notes will be given the railroad as a guarantee, and the money from the sale of the bonds used in lifting the notes.

A Rare Chance.

The special announcement of the Union Clothing Co. in yesterday's paper means a great deal to the people of Lima and Allen county. With winter at our doors the demand for heavy clothing, underwear, overcoats, etc., will naturally be great. October, November and December are the three months of the year when people purchase clothing, even though they buy nothing in this line during the whole remainder of the year. This sacrifice sale of the Union comes, therefore, at a very opportune time. The fact that the entire store will be overhauled makes it imperative that the Union's immense stock of clothing and furnishings shall be greatly reduced before the shoe department can be added. There is need of anything in the Union's line will certainly reap great financial benefits by attending this sale. The stocks are new and large in every department and rather than have the goods remain in the store, to be spoiled by dirt and dust when the work is being done the Union will sell at any price. We cannot give you better advice than to buy your winter goods at the Union and save money by doing it.
